SKILLS PROFILE

- Proficient in Javascript (ECMAScript 6), jQuery, CSS, HTML5, C/C++. Familiar with Java, MySQL, PHP, Ruby and bash script

- Past work experience involved AngularJS, NodeJS, Bootstrap, Yeoman, Grunt, Bower, Jasmine, Git, SourceTree, Jira. Self-taught ReactJS, Ruby on Rails through online courses and tutorials. Learning Ionic and Cordova through side projects (Toner) on Github

EXPERIENCE

Amaya Software, ON — Web Application Developer

Jan 2016 - Apr 2016

– Worked in large JavaScript codebase to develop PokerStars and Full Tilt Poker's web mobile app under AngularJS framework

– Redesigned user interface and implemented multiple features from scratch; Improved performance by refactoring legacy code

– Achieved *0.1%* bug rate throughout the internship; Developed in Jasmine unit testing framework to ensure correctness

– Implemented new navigation features and increased traffic of web app significantly by using Javascript internationalization framework (i18n)

– Improved insights by adding Google analytics to monitor click–through rate, impression, conversion and etc

– All projects were launched in production and received positive feedbacks

PROJECTS

PPTS_database — *A tiny pelagic predators tagging system*

– Modelled after the [Tagging of Pelagic Predators Survey](#) ran by Stanford University and its partners.

Where's Waldo — *Canvas game with sound effects*

– Enhanced design with canvas gradients and flashlight–like animation effects

– Provided cross–browser compatibility and responsive design

ABOUT ME

- 3rd year Computer Science Student at University of Waterloo
- INTJ and ISFP personality
- LOVE Web and IOT

AWARDS

Winter 2014– Summer 2014

Computer Science Dean's List

2nd Place Fishackthon Toronto 2016

[Project: Mazu](#) (Used IBM Bluemix OpenWhisk visual recognition service.)

EDUCATION

Dalhousie University, Halifax, NS — JAN 2014 - DEC 2014

University of Waterloo, Waterloo, ON — JAN 2015 - 2019

[Miscellaneous projects](#)

Web design works and Javascript games

– [Weekly practice series](#)

– [Gifts for besties](#)

– [Java and JS hangman](#)

– [Toner](#)
